This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

+ *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.

+ *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.

+ *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.

+ *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

About Google Book Search

Google's mission is to organize the world's information and to make it universally accessible and useful. Google Book Search helps readers discover the world's books while helping authors and publishers reach new audiences. You can search through the full text of this book on the web at `http://books.google.com/`

NOTICE.

THE RETURN TO COPYRIGHT CLAIMANTS OF PRINTED COPYRIGHT BOOKS, PAMPHLETS, CIRCULARS, LEAFLETS, ETC.

Sections 59 and 60 of the "Act to amend and consolidate the Acts respecting copyright" provide as follows:

SEC. 59. That of the articles deposited in the copyright office under the provisions of the copyright laws of the United States or of this Act, the Librarian of Congress shall determine what books and other articles shall be transferred to the permanent collections of the Library of Congress, including the law library, and what other books or articles shall be placed in the reserve collections of the Library of Congress for sale or exchange, or be transferred to other governmental libraries in the District of Columbia for use therein.

SEC. 60. That of any articles undisposed of as above provided, together with all titles and correspondence relating thereto, the Librarian of Congress and the register of copyrights jointly shall, at suitable intervals, determine what of these received during any period of years it is desirable or useful to preserve in the permanent files of the copyright office, and, after due notice as hereinafter provided, may within their discretion cause the remaining articles and other things to be destroyed: *Provided*, That there shall be printed in the Catalogue of Copyright Entries from February to November, inclusive, a statement of the years of receipt of such articles and a notice to permit any author, copyright proprietor, or other lawful claimant to claim and remove before the expiration of the month of December of that year anything found which relates to any of his productions deposited or registered for copyright within the period of years stated, not reserved or disposed of as provided for in this Act: *And provided further*, That no manuscript of an unpublished work shall be destroyed during its term of copyright without specific notice to the copyright proprietor of record, permitting him to claim and remove it.

In compliance with the above-cited provisions of law,

Notice is hereby given to the author, copyright proprietor, or other lawful claimant of any printed book, pamphlet, circular, leaflet, etc., deposited for copyright registration in the Office of the Librarian of Congress during the years 1870 to 1879, inclusive, that any such author, copyright proprietor, or other lawful claimant

may send to the Register of Copyrights his full name, the full title of the book, pamphlet, circular or leaflet, the year in which copyright registration was made, and, if possible, the number under which such book, pamphlet, circular, or leaflet was entered for copyright, with a request for its return. On receipt of such information and request, such book, pamphlet, circular, or leaflet will be returned to the author, copyright proprietor, or other lawful claimant, unless it has been otherwise disposed of according to law.

Application for the return of such book or pamphlet, etc., should be made as early as possible during the year 1911. If no such application has been received during said year, such book or pamphlet, etc. may be disposed of in accordance with the provisions of section 60 of said Act.

THORVALD SOLBERG,
Register of Copyrights.

FEBRUARY 1, 1911.

COPYRIGHT BOOKS FORWARDED FOR PRINTED TITLE CARDS

The catalogue titles for books deposited for copyright registration for which printed cards are furnished to other libraries are prepared by the Catalogue Division of the Library of Congress. These books are indicated in the Catalogue of Copyright Entries by the printer's number attached to each title, which can be used in ordering printed title cards.

The books deposited in the Copyright Office divide themselves into two classes:

Class a **Books received with informal applications or informal affidavits, or without the registration fee, or without the data required in order to make the copyright registration.**

In the case of these books, before any action can take place in the Copyright Office to indicate the registration number, correspondence must be had with the depositors. The necessary letters of inquiry are promptly dispatched, but it depends entirely upon the promptness with which replies to these letters of inquiry are received when these books can be numbered and forwarded for cataloguing. They are, however, commonly the less important works and are not received from the leading or regular publishers, but from occasional depositors.

Class b **Books received with the necessary fee, application, and affidavit, and these documents in such order that the registration can be promptly proceeded with.**

In the case of the books of class "b" the manner of handling them in the Copyright Office enables each to be given promptly a registration number, and such books, with a printer's copy card for each containing the full copyright notice, are sent forward from the Copyright Office for cataloguing, for the most part, on the day of receipt. These are mostly books deposited by the regular publishers, and include, therefore, not only the greater part of the books deposited, but also nearly all the important books. Of a total of 8254 books received and drawn up into the Library of Congress from the Copyright Office from November 8, 1909, to June 30, 1910, inclusive, 1338 were of class "a" and 6916 of class "b." Of the 6916 books of class "b" each book was sent up on the day it was received in the Copyright Office.

For the present fiscal year, out of a total of 7380 books received and drawn up into the Library of Congress from the Copyright Office July 1, 1910, to Febraury 1, 1911, inclusive, 760 were of class "a" and 6620 of class "b." Of the 6620 books of class "b" each book was sent up on the day it was received in the Copyright Office.

2198—pt. 1, no. 1—11—1*

THE Catalogue of Copyright Entries, Part 1, Group 1, containing the titles for books, is printed weekly with entries arranged alphabetically by author, or, if anonymous, by title. This group contains mainly the titles of books for which printed catalogue cards are issued by the Library of Congress, etc., also including the titles of foreign books and books registered under the act of March 4, 1909, for ad interim protection.

The Catalogue of Copyright Entries, Part 1, Group 2 (monthly), contains mainly the titles of pamphlets, leaflets, and literary contributions to periodicals, and all other productions registered under the legal designation "book" not found in Group 1, including also, however, preliminary reports of court decisions, local directories, herd-books and other annuals, etc. Group 2 also contains in three separate alphabets the titles for the entries made for Lectures, sermons and addresses prepared for oral delivery, Dramatic compositions, and Maps.

Under the Act of March 4, 1909, in effect from July 1, 1909, copyright initiates upon publication with notice. The preliminary entry of title ceases, and registration follows deposit of copies with an application for entry in the Copyright Office.

To save space in the Catalogue the copyright notice after each title is abbreviated. The abbreviations used in this Part are as follows: "A," Class A, Books; "A—Foreign," Foreign books in foreign languages; "C," Class C, Lectures, sermons and addresses prepared for oral delivery; "D," Class D, Dramatic compositions; "F," Class F, Maps; "©" stands for copyright registration, followed by date of publication, and "2c." for 2 copies, followed by date of their receipt. "A ad int." implies ad interim copyright registration under the law of March 4, 1909, of a book published abroad in the English language, for which the deposit of only one copy is required.

The number at the end of each title, after the notice of copyright, is a citation number by means of which reference is made in the index to this title.

The printed catalogue cards published by the Library of Congress may be ordered by the number in parentheses, printed with a hyphen, immediately following the copyright notice of the books for which such cards are supplied.

A list of the copyright renewals and extensions made for books under sec. 24 of the Act of March 4, 1909, will be found at the end of the last issue of Part 1, Group 1, for each month, just prior to the index. A similar list for dramatic compositions will be found in Part 1, Group 2.

The annual subscription price for the Catalogue of Copyright Entries (received only for the calendar year), for Part 1, Groups 1 and 2, is $1.00 for 1911, payable in advance to the Superintendent of Documents, Washington, D. C., by postal money order, express order, or New York draft.

BOOKS

Group 1

Ainsworth, Percy C.
